

You really think there's life on other planets?

No seriously. I'm working on a case right now!

There's no tangible proof for aliens!

It's not like magic which I've seen with my two eyes.

And your going to find the smoking gun!

It's kinda.. ya know HUSH HUSH alot of "ins and outs".

Just wait til this case breaks out..

It's going to be huge!

I can't wait to shove it in the face of my boss.

He thinks I'm a complete imbecile.

That's not true Jeffrey...

You're more like a lovable idiot :)

Shit!

What time is it?
